RIGHT PEOPLE AND RICH SOURCE. I can clearly measure my learning journey with tryScrum.com and it is giving me rapid growth in my professional roles and responsibilities. I was a Scrum master when I took up the 1st course with Tryscrum.com somewhere in December 2019 and today I am almost given the opportunity to lead and represent my organisation at client end to drive Enterprise Agile Transformation. I am the Agile Coach now. Knowledge is power and thanks for keeping me confident and powerful.

Course content used by tryScrum is very good in terms of understanding the enterprise agile transformations. The case studies were extremely useful. I have gained a lot of confidence from the ICP ENT session. I would implement the learnings immediately. The instructor was great and provided clarity for all the content and was very open and patiently answered all questions.
